Principal Product Designer with 15 years of experience designing and scaling consumer products at Dream11 for 250M+ users. Led high-impact product initiatives across growth, monetisation, and platform UX, including regulated market pivots and large-scale design systems. Strong senior IC with deep end-to-end ownership, cross-functional leadership, and hands-on execution. Leverages AI for rapid functional prototyping, creative exploration, and accelerating everyday product decision-making.

Principal Product Designer – Dream11

July 2025 — Now

- **Launched a sports entertainment platform** end-to-end within **two months**, spanning ideation, design, development, and go-live.
- Scaled to **7M weekly active users** within two months of launch, with **19.8 minutes average daily time spent**, validating strong engagement and product-market fit.
- Led the overnight design pivot from RMG to Free-to-Play with ads after the national ban, ensuring business continuity.

Strengths

Turning complex product problems into simple, intuitive experiences.

Mentoring and upskilling designers; shaped the design culture at Dream11.

Scaling design orgs and building strong hiring pipelines.

Leading cross-functional alignment through structured workshops and clear decision-making frameworks.
